

manipulation leads him to incorrect arguments about the normalization of the instrumental resolution function.

In conclusion we contradict Tindle's statements about the normalization; it is clear that the formulation presented by Dorner (1972) is correct.

In formulating this short note I benefitted from profound discussions with my colleagues A. Freund and R. Pynn.

Erratum

Acta Cryst. (1984). **A40**, 723

Graphic representation and nomenclature of the four-dimensional crystal classes. III. A notation for the crystal classes: erratum. By E. J. W. WHITTAKER, *Department of Geology and Mineralogy, Oxford University, Parks Road, Oxford OX1 3PR, England*

(Received 20 July 1984)

Abstract

A printers error is corrected in Table 2 on page 407 of Whittaker [*Acta Cryst.* (1984), **A40**, 404–407]. The correct lines are

Family XVII

$wx/yzw[0111]^*w[0110]/z[0\bar{1}10]:wx[0110]$.

All information is given in the *Abstract*.

International Union of Crystallography

Prices of *Acta Crystallographica* and *Journal of Applied Crystallography*

The Executive Committee of the International Union of Crystallography is pleased that it has not been necessary to increase the regular-price subscription rates and the prices of back numbers for *Acta Crystallographica* and *Journal of Applied Crystallography* as from 1 January 1985. The subscription rates for personal copies of *Acta Crystallographica* have been increased slightly.

Acta Crystallographica

The following rates will apply for Volumes A41, B41 and C41 (1985). Note that, except as single parts, Sections B and C are only available together. All subscription rates are fixed in Danish kroner, and the US dollar equivalents given below are subject to exchange-rate fluctuations and amendment without notice.

Complete volumes, regular price per volume

Sections A, B & C (combined subscription)	Dkr 5250	(\$571)
Section A only	Dkr 1275	(\$139)
Sections B & C (combined subscription)	Dkr 4200	(\$457)

Complete volumes, reduced price for individuals

Sections A, B & C (combined subscription)	Dkr 1450	(\$158)
Section A only	Dkr 350	(\$38)
Sections B & C (combined subscription)	Dkr 1200	(\$130)

All subscribers in the USA and Canada should add to the above subscription rates the additional charges for air-freighting as mentioned below.

The reduced-rate subscriptions are ordinarily only available to members of recognized scientific societies, and applications must be accompanied by a written undertaking that the journal is for the personal use of the subscriber and will not be made available to libraries, institutions, etc.
