The name of the third author and an error in equation (9) of the article by Markvardsen *et al.* [*Acta Cryst.* (2001). **A57**, 47–54] are corrected.

---

The following corrections should be made in the article by Markvardsen *et al.* (2001):

(i) The name of the third author is incorrectly given as J. C. Johnson. The correct name is J. C. Johnston as given above.

(ii) Equation (9) should be changed from

$$C_{ij}/(C_{ii}C_{jj})^{-1/2} \geq \eta \quad (9)$$

to

$$C_{ij}/(C_{ii}C_{jj})^{1/2} \geq \eta. \quad (9)$$
