The upgraded and refurbished High Resolution Powder Diffraction beamline at ESRF - ID22

Y. Watier¹, T. Mairs¹, F. Fihman¹, A. Fitch¹

¹*European Radiation Synchrotron Facility, Grenoble, France*

This poster will present the novelties and first results of the upgraded and refurbished high resolution powder diffraction beamline ID22 (former ID31) at ESRF. Ongoing projects and future developments will also be discussed.

Keywords: powder diffraction, beamline, synchrotron
