

Books Received

The following books have been received by the Editor. Brief and generally uncritical notices are given of works of marginal crystallographic interest; occasionally a book of fundamental interest is included under this heading because of difficulty in finding a suitable reviewer without great delay.

Structure reports for 1960. Vol. 24. Pp. viii + 795. Price f. 140 (\$39.00, £16. 8s). **Structure reports for 1951-1960. Index. Vol. 25.** Pp. vi + 364. Price f. 90 (\$25.00, £10. 10s). **Structure reports for 1961. Vol. 26.** Pp. viii + 891. Price f. 140 (\$39.00, £16. 8s). (15% Price reduction for standing orders). General Editor W. B. PEARSON. Published for the International Union of Crystallography by N. V. A. Oosthoek's Uitgevers Mij, Utrecht.

These *Structure Reports* give brief critical reports on work of crystallographic interest. They are presented in a systematic way under classes of chemical materials – metals, inorganic compounds organic compounds – have good cross references and are well indexed within each volume.

The ten-year index, Vol. 25, is in four parts – subject index, formula index, index of carbon compounds and author index.

The prices stated above are the regular prices for the volumes mentioned when these are purchased singly. Valuable concessions, however, are available to individual subscribers who purchase volumes for their personal use, and to all subscribers who place orders for certain sets of five or more volumes. Details of these concessions are given below.

Price reductions

A 15% discount will be given to all subscribers who place a standing order from Volume 22 onwards and who undertake to purchase at least 5 new volumes as they appear. This discount is being given to subscribers already on the standing order list, and it is also available for orders of five or more existing volumes.

Ten-year sets

Volumes 15-24 span the important 10-year period 1951-60 and may be referenced from the cumulative index Volume 25. The list price of these eleven volumes is f.1265. *The complete set may be obtained at the specially reduced price of f.1000 (\$280 or £117).*

Volumes 8-13 span the years 1940-50 and are referenced by the Index Volume 14. The list price for these seven volumes is f.510. *This set may be obtained at the special price of f.400 (\$112 or £47).*

Subscribers ordering ten-year sets will also be granted the 15% discount for standing orders from Volume 26 onwards.

Reduced personal prices

Private subscribers may now purchase any volume of *Structure Reports* at 50% of the list prices. Thus Volumes 22, 24 and 26 are available to private subscribers at f.70 (\$19.50 or £8. 4s.) each, and Volume 25 (Index) at f.45 (\$12.50 or £5. 5s.). Such subscribers should ordinarily be members of recognized scientific societies and must give an undertaking accompanying their order that the volumes are for their personal use and will not be made available to libraries, institutions, etc. No further reduction can be given for standing orders, but as a particular concession private subscribers may purchase the 1951-60 set, Volumes 15-25, at the special price of f.560 (\$156 or £65. 12s.), and the 1940-50 set, Volumes 8-14, at f.240 (\$67 or £28).
