

Book Reviews

Works intended for notice in this column should be sent direct to the Book-Review Editor (R. O. Gould, Department of Chemistry, University of Edinburgh, West Mains Road, Edinburgh EH9 3JJ, Scotland). As far as practicable books will be reviewed in a country different from that of publication.

Acta Cryst. (1989). **B45**, 599

Books Received

The following books have been received by the Editor. Brief and generally uncritical notices are given of works of marginal crystallographic interest; occasionally a book of fundamental interest is included under this heading because of difficulty in finding a suitable reviewer without great delay.

Occurrence, properties and utilization of natural zeolites. Edited by D. KALLÓ AND H. S. SHERRY. Pp. xiii + 857. Budapest: Akadémiai Kiadó, 1988. Price £45.00. A review of this book, by B. M. Lowe, has been published in the October 1989 issue of *Journal of Applied Crystallography*, page 518.

Patterson and Pattersons. Fifty years of the Patterson function. (IUCr crystallographic symposia, Vol. 1.) Edited by JENNY P. GLUSKER, BETTY K. PATTERSON AND MIRIAM ROSSI. Pp. xx + 727. Oxford University Press, 1987. Price £35.00. A review of this book, by P. Tollin, has been published in the November 1989 issue of *Acta Crystallographica*, Section A, page 804.

Solids and surfaces: a chemist's view of bonding in extended surfaces. BY ROALD HOFFMANN. Pp. x + 142. Weinheim and New York: VCH Verlag, 1988. Price DM 48.00, £16.25. A review of this book, by N. CANNING, has been published in the November 1989 issue of *Acta Crystallographica*, Section A, pages 803–804.
