

We make the invisible visible

MAX IV Laboratory

The MAX IV Laboratory has operated successfully for more than 25 years and is currently building the new MAX IV synchrotron facility in Lund. The MAX IV facility, the largest and most ambitious Swedish investment in research infrastructure will be the brightest source of X-rays worldwide.

New Life Science Director

We are now looking to fill the newly created position as Life Science Director.

If you are experienced in the use of synchrotron X-rays for Life Science research with a vision and drive to shape the future of the MAX IV Laboratory we are looking forward to hear from you.
