

[Ni(cyclam)(OCOR)₂], a finite molecular complex: hydrogen-bonded supramolecular aggregation in one, two and three dimensions, and coordination polymers in one and two dimensions. Erratum**Choudhury M. Zakaria,^{a†} George Ferguson,^{a,b} Alan J. Lough^c and Christopher Glidewell^{a*}**

^aSchool of Chemistry, University of St Andrews, St Andrews, Fife KY16 9ST, Scotland, ^bDepartment of Chemistry and Biochemistry, University of Guelph, Guelph, Ontario, Canada N1G 2W1, and ^cLash Miller Chemical Laboratories, University of Toronto, Toronto, Ontario, Canada M5S 3H6

In the paper by Zakaria *et al.* (2002) *Acta Cryst.* (2002), **B58**, 78–93 the title was printed incorrectly. The correct title should read: [Ni(cyclam)(OCOR)₂]: a finite molecular complex; hydrogen-bonded supramolecular aggregation in one, two and three dimensions; and coordination polymers in one and two dimensions.

Structurally ferroelectric SrMgF₄. Erratum**S. C. Abrahams**

Physics Department, Southern Oregon University, Ashland, OR 97520, USA

In the paper by Abrahams (2002) *Acta Cryst.* (2002), **B58**, 34–37 two errors were printed. First, in the abstract the Curie temperature was incorrectly given as ~1450 K. The correct value is ~450 K. The second error occurs in section (a) of p. 36. The polar displacement expression is currently given as $\Delta z_i \simeq 1 \text{ \AA}$. The correct expression should be $\Delta z_i \simeq 1 \text{ \AA}$.
