**Keywords:** lactoperoxidase; propylthiouracil;  
distal haem side; antithyroid drug; retraction

The results in the article by Singh *et al.* [(2015), *Acta Cryst.* **F71**, 304–310] have been brought into question and the article is retracted.

Concerns have been raised about the results and modelling of the ligand in the distal heme-pockets of the structure reported in the article by Singh *et al.* (2015). Following further investigation, the authors and Editors have agreed to retract the publication. The original PDB entry 4qyq has been obsoleted. The Editors thank the communicating author for his positive engagement, and for addressing issues raised in a timely fashion, and apologise to readers for any inconvenience.
